

Thank you for downloading this unit, I hope you find it useful! I created these lessons to homeschool my own children, pulling inspiration and ideas from many different sources. Overall I hope these units will give my preschoolers a solid foundation in God's Word, while also teaching basic early learning skills. The Bible verses featured are from the book,

For the craft, simply print the next page and have your child color the letters in the words GO and WORLD as you just talk together about what this verse means. You can also talk about the 7 continents if you desire.

Your child could cut pictures of kids from magazines, or s/he can draw some kids on the page. Talk about how these kids from around the world are very important to God, just like him/her!

To take it even further—visit a website like www.Compassion.com and look at the different child sponsorship programs around the world.
